Learn to SCUBA DIVE

OPEN WATER DIVER

Whats Included . . .

The course covers 5 theory modules followed by 5 confined water dives in a pool and finishes with 4 qualifying dives in open water over 2 days.

The course includes all your books, scuba units for the pool sessions, all airfills and your certification card at the conclusion of the course.

Whats Extra . . .

A medical examination by your GP before you can do the course (your expense).

You need your own personal mask, snorkel, fins and boots for the course.

If you don't have your own complete set of dive gear by the time you do the open water dives you can hire it from us.

About the Course . . .

Classroom

- Learn how to plan your dives safely
- How pressure affects your body
- Meet new friends
- Learn lots of interesting stuff from your friendly, professional instructors

Pool

This is where you get wet and learn to master the skills you need underwater with the guidance of your instructor.

Open Water

Now its time to show what you've learned. Demonstrate your newly acquired skills with your instructor in the open water.

Learning is performance based
We progress at your comfort level

WHATS NEXT?

After you've completed your Open Water Diver Certificate you ask what's the next step?

Experience is the key . . . keep diving! Remember to keep a log book of all your dives for your own records.
